Clean lines and shapes to create the perfect harmony with your wellness atmosphere.

SOFT SAUNA_MIZUKI

Natural materials and colors are essential for your moment of relaxation, during which time vanishes.

HAMMAM_MIZUKI

Follow the Mizuki Ritual

Take a hot shower

to prepare your body temperature and your skin, without forgetting to dry yourself before entering the cabins.

Enter the Sauna

with aromatic bamboo notes and alternate the treatment with a thermal impact taking a cold shower.

Unwind for a moment

with an herbal tea, covering yourself with a warm towel.

Enjoy the invigorating sensation

offered by Mizuki Hammam, with 100% constant humidity and gentle warmth with aromatic green tea and mint notes.

Conclude your wellness

routine with a hot and cold alternating kneipp shower and don't forget to apply a moisturizing oil when your skin is still wet.

Beauty benefits of the Mizuki Ritual

A single Mizuki session may not have much of an impact, but if you transform sauna and hammam treatments into a habit, you will soon see a difference in your appearance. And that's why we talk about Ritual.

Regular sessions

of KiLife's Mizuki Ritual can be true allies of your health and your body.

Heat and sweating

purify the pores and improve circulation, stimulate collagen production and give the skin a more youthful appearance.

The increase in temperature

stimulates the heart rate, activating peripheral circulation and lymphatic system, increasing immune defenses and preventing infections..

Being able to experience a moment of complete relaxation

will facilitate the release of endorphins: these substances give a special and widespread well-being sensation to the whole body.
